Subject: Farewell from 2018 Water Advisory Committee Chair

Dear Drew,

Please relate this message to the WAC Directors and TAC members.

It has been an honor and pleasure to have served with you all on the Water Advisory Committee.

In my view, there is not a more valuable mission than the work we all do for water. Whether it be conservation, recycling, keeping up on regulatory and compliance issues, monitoring and protecting supplies, or just watching the skies for atmospheric rivers. All other sectors of our region and economy are reliant upon water and our efforts to ensure it is there when we, and our environment, needs it.

This next year's efforts will be crucial, and your commitment and focus critical toward resolving new water challenges and expectations. I wish you all the very best and thank you again for your trust in allowing me to be a part of the leadership in the WAC's ongoing mission.

With my regards,
