

# Sonoma Water

Clean. Reliable. Essential. Every day.

## Fish Habitat Flows and Water Rights Project

Jessica Martini-Lamb  
Environmental Resources Manager

Barry Dugan  
Principal Programs Specialist

# Project Components

- Reducing water velocities for juvenile threatened and endangered salmon
- Updating water rights to reflect current conditions
  - Proposing a new Russian River Hydrologic Index
  - Request for extension of time to complete full beneficial use of existing water rights
  - Adding additional authorized points of diversion for Occidental CSD and Town of Windsor

# Current Status

- Meetings held with agencies
- Staff addressing issues raised in comments

# Public Outreach

# Next Steps

- Continue addressing issues raised by comments
- Recirculation of Draft EIR
- Final EIR
- State Water Resources Control Board process
