

Water Efficiency Rebate Program

Save Water. Save Money.

The Water Efficiency Rebate Program was established to help you save water, save money, and protect your groundwater resources.

Front Load High-Efficiency Clothes Washer Rebate

Get \$50* back on the purchase and installation of a new, qualifying front load high-efficiency clothes washer (HEW). A new washer can use 40 to 60% less water and energy than older, top loading clothes washers. HEWs use 18 to 25 gallons of water per load compared to 50 or more gallons for top loading models.

Use less water, less energy, and less detergent while cleaning your clothes better and with less wear and tear. New HEWs also remove more water from laundry during the spin cycle so loads spend less time in the dryer. The savings all add up to a great deal that can pay for itself in a few years.

List of Qualifying Models

Rebates are available for front load **EnergyStar® Most Efficient** designated clothes washers. For a listing of qualifying clothes washers, visit the EnergyStar® website: <https://www.energystar.gov/most-efficient/me-certified-clothes-washers/> or call (707) 524-1165.

Not all EnergyStar® models qualify so be sure to check the list. Rebates are only available for front load clothes washers designated as “Most Efficient”. Top load models and models with silver ion technology are not eligible.

Serving Groundwater Users in the Santa Rosa Plain Groundwater Subbasin including:

- Private wells
- Mutual water systems
- Shared wells
- Community wells
- Other not for profit water systems

High-Efficiency Toilet Rebate

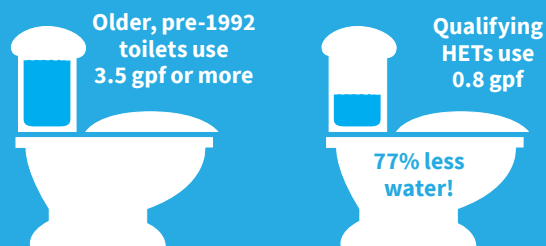

Get up to \$100* back on the purchase and installation of each new, high-efficiency toilet (HET).

Qualifying HETs use a maximum of 0.8 gallons per flush (gpf) or less. Replacing your older toilet saves water and reduces wastewater without sacrificing performance.

List of Qualifying Models

Rebates are available for the following toilet models:
Ferguson PROFLO “Greenlee” models
Niagara “Nano,” “The Original,” “The Original Dual Flush,” “Phantom,” and “One-Piece” models
Tynan Plumbing “MacLair Ultra” models

HETs use 77% less water than the old 3.5 gallons per flush (gpf) toilets.

* Rebates available on a first come, first served basis through June 30, 2020 while funding lasts.

* Rebates available on a first come, first served basis through June 30, 2020 while funding lasts.

How to Participate

1. Read and understand the Program Eligibility and Rules.
2. Determine if your home is located within the Santa Rosa Plain Groundwater Subbasin by viewing the map located at <http://santarosaplaingroundwater.org> or call (707) 524-1165.
3. Purchase and install your qualifying 0.8 gallon per flush or less high-efficiency toilets (HET) and/or front load high-efficiency clothes washer (HEW) between July 1, 2019 and June 30, 2020. **Be sure that the toilets are on the List of Qualifying Models** or that the clothes washer **model numbers match exactly with the EnergyStar® Most Efficient List**. Note: Top load HEWs and HEWs with silver ion technology are **not** eligible.
4. Complete and sign the application form below and mail along with **original** purchase receipts/plumbers invoices to:

**Santa Rosa Plain Groundwater Rebate
404 Aviation Blvd
Santa Rosa, CA 95403**

5. Please allow 6 to 8 weeks to process your rebate requests. Checks will be mailed to the address provided below.

* Rebate amount cannot exceed the cost of the HET or HEW excluding sales tax, delivery, installation or other fees, costs or accessories.

Program Eligibility and Rules

1. Rebates are available July 1, 2019 through June 30, 2020 on a first come, first served basis while funding lasts.
2. Your home's primary drinking water source is a private well and is located within the Santa Rosa Plain Groundwater Subbasin.
3. Your new toilets and/or clothes washer have been installed at the property listed below and your rebate application is received or postmarked within 90 days of purchase or delivery. All purchases must be made between July 1, 2019 and June 30, 2020 to be eligible.
4. Incomplete applications and those without original purchase receipts will be returned.
5. For High-Efficiency Toilets:
 - Your home must have been built before 1992.
 - The toilets you are replacing are designed to flush at more than 1.6 gallons per flush (generally, toilets manufactured before 1992).
 - Your new toilets use a maximum of 0.8 gallons per flush.
 - Your old toilets were properly recycled.
6. For Front Loading High-Efficiency Clothes Washers:
 - Your new front loading clothes washer is an **EnergyStar® Most Efficient** listed model.
 - Your old clothes washer was properly recycled.
